Appendix C-1: Additional Businesses Allowed to Operate Effective June 5, 2020

Appendix C-2: Allowed Additional Activities

General Requirements

The “Additional Businesses” and “Additional Activities” listed below may begin operating, subject to the requirements set forth in the Order and to any additional requirements set forth below or in separate industry specific guidance by the Health Officer. These businesses and activities were selected to implement a measured expansion of commercial activity based on health-related considerations including the risks of COVID-19 transmission associated with types and modes of business operations, the ability to substantially mitigate transmission risks associated with the operations, and related factors, such as the following:

- Increase in mobility and volume of activity—the overall impact the reopening will have on the number of people leaving their homes and traveling to work at or access the business;
- Contact intensity—the type (close or distant) and duration (brief or prolonged) of the contact involved in the business;
- Number of contacts—the approximate number of people that will be in the setting at the same time;
- Modification potential—the degree to which mitigation measures can decrease the risk of transmission.

To mitigate the risk of transmission to the greatest extent possible, each Additional Business must, before resuming operations:

1) Prepare and complete a Social Distancing Protocol (SDP) for each of its facilities in the County used by Personnel or the public, using the template provided in Appendix A to the Order.

2) The COVID-19 PREPARED Sign and SDP Visitor Information Sheet, which are included with Appendix A, must be printed and posted at or near the entrance of the facility, such as a window, and shall be easily viewable by the public and Personnel from outside the facility.

3) The SDP must be distributed to all Personnel working at the facility. Implement all measures in the Social Distancing Protocol prior to opening.

4) Print and post all signage required in the SDP. Several sign templates are available on the Public Health Department’s website at: https://www.sccgov.org/sites/covid19/Pages/learn-what-to-do-flyers.aspx.
(3) Outdoor Recreational and Athletic Activities (Tennis)

a. Basis for Addition. Non-contact recreational and athletic activities have low-to-moderate levels of transmission risk. Risks associated with these activities can be mitigated through measures that ensure adequate social distancing and limit intermixing between households.

b. Description and Conditions. Non-contact recreational and athletic activities with members of other households may occur subject to the following limitations in addition to those required elsewhere in the Order:

i. **No more than two households or living units may engage** in these recreational and athletic activities together at any one time.

ii. No equipment (except balls, frisbees, or other projectiles) may be shared between households or living units.

iii. All recreational and athletic activities with members of another household or living unit must occur entirely outdoors.

iv. Members of separate households or living units must remain at least six feet apart at all times.

v. Face coverings must be worn when recreating with members of another household or living unit, except when actively exercising or by people who are exempted from the face covering requirement pursuant to the Health Officer’s Critical Guidance on Face Coverings.
(5) Childcare, Camps, and other Educational or Recreational Institutions for All Children

a. Basis for Addition. These businesses are critical to children’s physical, mental, and social development, and also play a vital role in families’ social and economic wellbeing. However, these programs involve a relatively high quantity, intensity, and duration of contacts, and children are often unable to consistently follow social distancing and sanitation requirements that apply to other types of businesses. Risk associated with this category of businesses can be mitigated to some degree with limitations on the size of the groups and on intermixing between groups. In addition, because many of these businesses are already allowed to operate for some children, this addition creates a relatively modest expansion of activity. 4 Effective June 5, 2020

b. Description and Conditions to Operate. All childcare establishments, camps, and other educational or recreational institutions or programs may provide their services to all children subject to the following limitations in addition to those required elsewhere in the Order:

i. Programs must be carried out in stable groups of 12 or fewer children (“stable” means that the same 12 or fewer children are in the same group each day).

ii. Children within a program shall not change from one group to another within that program.

iii. If more than one group of children is at one facility, each group shall be in a separate room. Groups shall not mix with each other.

iv. Providers or educators shall remain solely with one group of children.

v. Children may not move from one program to another more frequently than once every three weeks, or take part in more than one program simultaneously.
(8) Outdoor Swimming Pools

a. Basis for Addition. Outdoor swimming pools have few high-touch surfaces and do not require shared equipment. Risks associated with outdoor swimming pools can be substantially mitigated with limitations to ensure adequate social distancing and limit intermixing between households.

b. Description and Conditions to Operate. Outdoor swimming pools may operate subject to the following limitations in addition to those required elsewhere in the Order:

i. Lap swimming must be limited to one swimmer per lane, except that members of the same household or living unit may occupy a single lane.

ii. Use of shared swimming areas must be limited to no more than one swimmer per 300 square feet of shared pool space.

iii. Except for members of the same household, swimmers shall remain at least six feet apart at all times.

iv. At least one person, separate from a lifeguard, shall be on duty at all times to ensure that the social distancing protocol applicable to the facility and all limitations herein are followed.

v. Locker rooms shall be closed to the public, except for use as a restroom.

vi. All gathering shall be prohibited outside the pool, such as on pool decks, except that members of a household may observe a child or other person swimming to ensure safety and supervision.
